

OUR STORY

Our story began in 2015 when as a nurse, I saw a great need in the transitioning to safe housing for the elderly after being discharged from the hospital. I approached my husband, Isaac about the possibility of reconstructing our residential basement into a Personal Care Home. Isaac, having the same passion for the elderly agreed to convert his much-loved man cave.

At Serenity Empire, our well- trained staff and caregivers have provided patients with excellent senior care.

We take pride in providing family members the assurance that their **loved ones are in the best hands**. While under our care and supervision, we encourage independence with our residents throughout their activities of daily living.

Our homes become our residents' home when we encourage family members to participate in the lives of their loved ones. When your loved one stays at Serenity Empire, they will receive the utmost care possible – the kind of care that you would want for someone who is close to your heart.

Levels of Care

Long Term Care (Month to Month Contract) - As we age, activities of daily living may become challenging. We provide assistance to elders while allowing them to live as independently as possible

Short Term Care (1 to 90 days) - In-home care following a serious injury, illness, stroke, or other serious accident. Receive the best 24 hour medical care and supervision.

Hospice Care - Emotional, medical, and spiritual support for those nearing end of life. This allows the family and patient to focus on enjoying quality time together in a home setting.
